

KROSS AIR CONDITIONER CLEANER SPRAY

Air conditioner cleaner is applied for cleaning and maintaining air conditioning systems. It is used to clean evaporator and condenser coils, eliminate mold and mildew, deodorize the system, and improve overall indoor air quality. Regular use prevents blockages and ensures efficient system operation.

APPLICATION

Cleans the evaporator and air conduits from all contaminations. Contains an anti-bacterial agent.

TECHNICAL PROPERTIES

Character	Milky Foam
Application Temperature	15 - 35°C
Propellant	Hydrocarbon

SIZES & PACKAGING

200 ML
