

KROSS DPF CLEANER

A high-performance additive for use in all diesel aggregates to reduce soot and exhaust gas emissions and to increase engine performance. Compatible with all diesel engines and suitable for all kind of diesel fuels.

APPLICATION

All diesel particulate filters.

FEATURES

Only a clean fuel system guarantees optimal operation of all system components, an efficient engine performance and minimum exhaust emissions! Protects the diesel particulate filter and the environment. Reduces soot formation and supports the regeneration of the diesel particulate filter. Enhances storage and corrosion stability of the diesel fuel and acts as defoaming agent. Increases cold start properties. Regular use helps to keep the filter clean and avoids expensive repair works.

TECHNICAL PROPERTIES

Physical state	liquid
Colour	yellow-gold
Odour	characteristic
Relative density [g.cm-3]	0,810
Boiling Point [°C]	180 - 280
Flash Point [°C]	>78

Specification variations in these characteristics may occur.
