

KROSS WHITE GREASE

WHITE GREASE is a water resistant multi-purpose calcium grease containing fibers, formulated with good quality base oils and high performance additives. It is recommended for low or medium rpm engines equipped with flat or ball bearings where operating temperature not exceeding 70° C.

PROPERTIES

High Resistance to Water and Corrosion: It provides high resistance to against the corrosion and water.
Anti-Wear Feature: It minimizes the maintenance expense thereby decreasing the corrosion. It decreases the expenditures that stick on surface because of the fibrous structure.

TYPICAL CHARACTERISTICS

Soap Class	STANDARD	Ca	Ca
Color	-	White	White
NLGI	-	3	2
Dropping Point, °C, Min.	ASTM D 566	95	95
Worked Penetration 25°C	ASTM D 217	220-250	265-295
Operation Temperature, °C	-	-20/+70	-20/+70
